

# WISDOM WEEKLY

*Week of October 7, 2024*

*Sparking Minds, Enriching Souls, Inspiring Futures*

## Conversations with Administration

From time-to-time students are called to the office to have a conversation with members of the administrative team to resolve a conflict or problem that requires more time than the teacher has available during the day. These conversations are meant to help students work through their feelings, give them time to share details of an incident and to resolve conflicts with peers. Our goal is to help students resolve problems in real time.
