

## Math:

1. For your math assignment, please complete the four pages of Multiplication Pencils. We will use these throughout the school year, so be sure to correctly answer each equation!
2. We also ask that you play Family Math Games with your siblings, parents, or friends. After you complete a game, have mom or dad initial in the box. Try to play as many games as you can!
3. (Optional) Lastly, we have provided some fun MATH PUZZLES for you to work on over the summer. These are optional, but we highly recommend you work on some of these puzzles to strengthen and keep your math skills on track over the summer! Next year will be an exciting and challenging year as you take 4th grade Math. Some of the important skills you need to have in order to be ready for 4th grade include: add and subtract whole numbers, multiply by whole two-digit numbers, divide by one-digit numbers, and compare fractions. These puzzles have been put together with those skills in mind.

Be sure to bring in all of your Literacy and Math activities on the first day of school to share with the class. We can't wait to see your  
3 Book Projects, Multiplication Pencils, and Math Calendar!

Love,

The Fourth Grade Team
