

CELEBRATING 10 YEARS

Sparking Minds, Enriching Souls, Inspiring Futures

Fully Accredited by AdvancEd

As we celebrate our tenth anniversary year and reflect on our journey, we recognize the important role we play in sparking, enriching and inspiring our students, and being a vibrant member of the communities we serve. We continue to take actions designed to ensure the academy's long-term stability and success, and we are confident those actions will serve us well for our next ten years and beyond.

With the recent completion of a 4,000 square foot extension dedicated to science, technology, arts, and its youngest learners, Divine Wisdom Catholic Academy ensures students continue to receive an academically rigorous education designed to promote 21st century skills. The extension includes a warm, nurturing Nursery classroom, Music Conservatory, and dedicated space for STEM, Robotics, and a Teaching Planetarium. This complements an already innovative academic program incorporating rich, diverse enrichment programs in Art, Music, Computer, Physical Education, and Spanish.

The academy empowers students to reach their full potential spiritually, intellectually, morally, physically, and socially through high quality, student centered, differentiated educational programs stressing integration of teaching across the curriculum, achieved through individualized and small group classroom instruction. Literacy is promoted through a balanced literacy approach directed at each student's "just right" level supported by the Wilson "Foundations" Program in Kindergarten, leveled libraries in all classrooms, Accelerated Reader, and a Literacy Coach. The Go Math program provides a consistent, integrated Math program from Kindergarten through grade 8 culminating in Regents Integrated Algebra for 8th graders. Technology abounds with a newly renovated, state of the art, Computer lab, Chrome books, iPads, SMART boards, SMART Table, Google Classroom, and a 3D printer. Extracurricular programs, including Mad Science, Bricks for Kidz, Paul Effman Band, Adventures in Acting, Chess, Aquinas, Leo's Service, NBA Math Hoops, Tiger Tennis, Dance, and CYO sports round out the academic experience.

A commitment to vertical integration of Catholic education, fostered through affiliations with St. John's University and St. Francis Preparatory School, promotes science research, music, robotics, digital drawing and service projects for our middle school students.

Start Early and Start Right! The academy sponsors Free Full Day Pre-K for All Programs, equipped with new furnishings and technology, designed to promote academic, social, fine and gross motor skills development of our four-year old students. The academy also offers half day and full day Nursery Programs for our three-year old students in an intimate and nurturing setting.
