

**Sparking
Imaginative Learning**

Mad Science presents: Crazy Chemworks and Robotics

*Some of the classes we
will conduct this Semester
are as follows:*

Crazy Chemworks for Gr K-4

Come and spark imaginative learning with some Mad chemistry. Watch as we combine elements and make them fizz, crackle and change color! We'll delve into molecules and chemical reactions that produce light, gas and even slime. Some of the weekly topics in this session include : **Lab Works, Junior Reactors, p.H. Phactor, Slime Time, The Glow Show, Dry Ice Capades, Icky Sticky Stuff, Chemistry Corner, The Mystery of Chem and Kitchen Chemistry**

Robotics (for Grades 3 and up only)

Spend the semester learning about robots while we experiment and play with them. We will we discuss what makes robots different from humans while exploring circuits and conductivity as well as simple machines. Over the course of this semester, you will build the **EM4 Robot Kit** and explore its four exciting modes: Cricket—who's a joy on 6 legs, Beast—the master of bipedal movement, Trailer—the little engine that could move forward thanks to its motorized transmission, and good ole Grandpa-bot—everyone's favorite bobble-headed gear-driven family member. Each mode is equipped with its own unique form of movement and with a few easy steps, transforming between each mode is a breeze.

A minimum number of students must be enrolled in order for each class to run. Final decisions to run or cancel will be made one week before the start date of the program. There are no refunds for programs children fail to attend.
