

January 10th, 2020

Dear Pre-K Families,

This week we began our new unit all about Transportation! You can support our learning by completing one (or both!) of the Family Engagement activities below.

- Continuing our discussion of how we travel to Pre-K, we ask that the children please draw a picture on the page provided and dictate a story about how they get to Pre-K. You can ask questions about what your child sees along the way, how many traffic lights you stop at, how many turns you make, or signs you see and what the sign means. You can encourage your child to include these details in his or her picture! We will be compiling their work into a class book.

- On your travels please look around for the license plates of vehicles. Discuss how they have letters and numbers on them and that they look different when they are from other places/States. Please write down the numbers and letters on one license plate, or take a crayon rubbing, to bring in and show the class.

Thank you for your continued support!

Mrs. Blanco, Mrs. Buscemi, and Ms. De Nardo
