

January 17, 2020

Dear Parents,

We are continuing our unit on Transportation. You can support our learning by completing one or both of the Family Engagement activities below.

1. Go on a community helper sight walk with your child. You can discuss how community helpers are people that do a service for our community. What kinds of vehicles did you find? What is the name of the community helper? What do they drive? Are all community helpers or vehicles the same? What is the same or different about them? Would you like to be a community helper or drive one of their vehicles? Which one?

2. During mealtimes have a discussion about the foods that are transported on vehicles, e.g. how bananas, pineapples or other types of fruit gets to your home? Do you think it comes on a boat, train, plane or by truck? Why?

Thank you for your continued support!

Mrs. Blanco, Mrs. Buscemi, Ms. De Nardo
