

November 13th, 2020

Dear Pre-K Families,

This week we explored our senses of smell and taste. Please choose one (or both!) of the Family Engagement activities below to extend your child's exploration of their senses.

1. We explored our sense of smell through discussions, non-fiction read alouds, and hands-on experiences. You can help extend your child's learning by encouraging him or her to find smells around the house (ie, explore foods, soaps, unlit candles, etc). You may record your child's findings and thoughts and include a photograph or drawing of his/her new smelling experience.

2. Taste test four new foods or snacks at home as a family this week. Record and share your child's comments about the foods on the template attached on Google Classroom. Then vote for your family favorite!

Thank you for your continued support.
Mrs. Blanco. Mrs. Buscemi, Ms. De Nardo
