This week we continued to explore our new unit on Buildings by investigating buildings. We reviewed different types of buildings and spoke about what makes a good building.

We read books on grocery stores and discussed how we could make part of our Dramatic Play area into a grocery store. We added a cash register to buy groceries, as well as items that the children can buy in the grocery store.

In the Art Center, the children had an opportunity to create different types of groceries using 3D materials from recycled items, such as paper towel roll cans and drink containers.

We also encouraged the children to make different kinds of buildings using 3D materials in the Art Center by planning out what building they would like to create and what parts will that building have, such as doors, windows, rooms, and so on.

Next week we will be continuing our unit on Buildings by focusing on buildings.
