

May 13th, 2022

As we continue our new unit on babies, one of the things we will be talking about during this unit is how babies change. We are asking that **all students send in two 4x6 pictures**, one of what they looked like as a baby and one of what they look like now.

We will be using these pictures in a guessing game by matching up our present day picture with the correct baby picture. Please submit these photos digitally through Google Classroom if possible. Thank you for your help! We can't wait to try out our luck at guessing all the cute babies!

Sincerely,

Mrs. Blanco and Mrs. Buscemi
