Dear 3K Families,

Next week we will be continuing our unit on Growing by focusing on how things grow. You can support this by having your child plant various types of seeds either from a packet or from the seeds that they find when they eat a piece of fruit. You can ask your child questions, such as how do you think the seed will grow? What kind of seed is it? What will grow from it? When your seeds grow, do they grow the same way or different? Tell me about it. You can write down your child's dictations on what they say. They may provide pictures of themselves planting their seeds and keep us updated as their seeds grow. Have fun!

We can't wait to see and hear what the children have to share!

Ms. De Nardo and Mrs. Cannella
