Dear 3K Families,

This week we started our new unit on Change by focusing on how things change. We spoke about how things, such as seasons and the day can change all around us. We spoke about what kind of changes we see during the seasons, as well as during the day and night. You can support this by having your child draw a picture of things that they can do during the day and what they can do during the night. Ask your child questions, such as can you do the same things during the day and night? If so, then what kind of things? If not, then why not? What are some of your favorite things to do during the day? What are some of your favorite things to do during the night? Tell me about it. You can write down your child's dictations on what they say. Have fun!

We can't wait to see and hear what the children have to share!

Ms. De Nardo and Mrs. Cannella
