

Math Olympiads

Grades 4-6 only

<https://moems.org/>

Teacher: Ms. Lombardi

Tuesdays from 2:50-4:00 PM

12 Sessions Beginning the week of 9/27 through the week of 12/12

MOEMS® was established in 1979 and is one of the most influential and fun-filled math competition programs in the United States and throughout the world, with over 120,000 students from every state and 39 countries participating. The objectives of MOEMS® are to teach multiple strategies for out-of-the-box problem solving, develop mathematical flexibility in solving those problems, and foster mathematical creativity and ingenuity.

Join our math team! Our focus will be preparing students for a 5 question monthly competitive quiz offered by Math Olympiads. We will spend our sessions reviewing old math problems and strategies for success. Then we will participate in taking the quiz. A few days later, your child's ranking will be available online. All are welcome to join us regardless of your previous math grades. This is an opportunity for students to sharpen their critical thinking and math skills in a fun environment. All students will also have the opportunity to sign up for a separate competition hosted by Kangaroo Math, that will take place this spring. This is an international competition. <https://mathkangaroo.org/mks/>

The cost of the program is **\$240**
